About

Hi, my name is Jonatan, and I am studying Human-Centered AI (MSc) at DTU. My academic background is a blend of Data Science, Mathematics and Computer Science, with fluency in both Python and C#. I have experience with TensorFlow, PyTorch, .NET, C++, Lua, Java, JavaScript, React and Flask. You can expect me to be an open-minded learner with great ambitions and a can-do attitude. Peers describe me as responsible and independant, with a keen eye for the needs of others.

Education

- 2023 - 2025 **MSc. Human-Centered AI (currently enrolled)** | *Technical University of Denmark (DTU)*
Grade average: 9.8 - I have chosen the Data Science study plan with Software-focused electives.
- 2020 - 2023 **Bsc. Cyber Technology** | *Technical University of Denmark (DTU)*
Grade average: 7.9 - My curriculum mixed Mathematics, Telecommunication and Computer Science.
- 2015 - 2018 **HTX, Mathematics A and Physics A** | *Zealand Business College, Slagelse (ZBC)*
Grade average: 9.9 - I did voluntary work as a mentor for 9th graders and received a certificate.
- 2014 - 2015 **Flakkebjerg Efterskole, 10th grade** | *Flakkebjerg Efterskole (Boarding School)*

Courses

Mathematics 02105 *Algorithms and Data Structures 1* | 01017 *Discrete Mathematics*
01005 *Advanced engineering mathematics 1* | 02402 *Introduction to Statistics*
02561 *Computer Graphics* | 02562 *Rendering - Introduction* | 02502 *Image analysis*
02450 *Introduction to Machine Learning and Data Mining* | 02180 *Introduction to Artificial Intelligence*

Data & Software 02807 *Computational tools for data science* | 02476 *Machine learning operations*
02805 *Social graphs and interactions* | 02806 *Social data analysis and visualization*
34334 *Advanced data networks and cyber security* | 34331 *Digital hardware design for communications*
02161 *Software Engineering 1* | 02393 *Programming in C++* | 02809 *UX design prototyping*
41010 *User oriented design* | 41012 *Visual communication* | 42430 *Project Management*

Projects

🔗 **DTU Course Analyzer** | 100.000 monthly page hits, all-time most upvoted on /r/DTU subreddit
My popular course analysis website, made for students at DTU. Authored and maintained by me.

🔗 **WoW Weakaura: /say Callouts M+** | 12.000 views, 1100 downloads and 150 stars
My World of Warcraft interface mod (personal project). It alerts players about lethal combat_log_events.

📺 **Jonatan Rasmussen YouTube Channel** | 300 subscribers and a four-digit average view count
Personal videos about DTU and about life.
